PROFESSIONAL SUMMARY

Business Informatics Graduate with hands-on experience in banking IT, data analysis, visualization (Power BI), software development, and system optimization. Passionate about driving digital transformation through innovative tech-driven solutions. Proven ability in technical documentation, workflow coordination, and enterprise support within professional environments.

EDUCATION

Bachelor of Science in Business Informatics

University of Technology Bahrain

GPA: 3.69/4

May 2022 – Dec 2025

Diploma in IT Information Systems

University of Bahrain

Sep 2019 – Jan 2022

CERTIFICATION

- **Microsoft Power BI Data Analyst Professional Certificate**, Microsoft - June 2025
- **Generative AI: Cybersecurity & Privacy for Leaders Specialization**, Vanderbilt University (Coursera) - June 2025
- **Cisco Certified Network Associate (CCNA)**, Cisco - April 2026

EXPERIENCE

Ithmaar Bank - Information Technology Trainee

Feb 2026 – July 2026

- Developed a C#/.NET desktop application used internally to generate Bahraini IBANs and QR codes, automating PDF report creation and email delivery to replace manual account information sharing.
- Automated daily interbank rate (BHIBOR) collection and distribution using a custom-built C# Windows Service, reducing manual reporting effort and ensuring consistent, error-free delivery to users.
- Identified, analyzed, and documented coding errors and technical issues through testing and form-based reporting.
- Assisted in preparing technical documentation and presentation materials for internal banking workflow processes.
- Gained practical experience in workflow coordination, technical documentation, and enterprise technology support.
- Investigated and assessed screen management and split-screen solutions for large-format operational displays to optimize monitoring efficiency.
- Researched and evaluated Host-to-Host integration solutions to support secure and efficient data exchange within banking operations.
- Gained practical knowledge of online banking dashboards, their features, and operational usage within a live banking environment.
- Researched and evaluated user management and access control requirements for internal banking systems.
- Documented user roles, permissions, and access level specifications for vendor/development handoff.

- Assisted in coordinating with stakeholders to define user control workflows and system requirements.
- Researched OTP authentication solutions suitable for banking security and compliance standards.
- Assisted in defining OTP workflow specifications including delivery, validation, and expiry logic.
- Evaluated options and documented technical requirements for OTP integration.
- Supported daily technical and operational tasks within a banking environment.

Dr. Rana's Aesthetic Health Centre – Information Management Specialist

Aug 2026 – Oct 2026

- Developed and engineered a comprehensive demo website for the clinic to showcase modern digital workflows and structured online patient intake layouts.
- Researched, designed, and mapped out 24/7 automated messaging paths for WhatsApp, Instagram, TikTok, Facebook, and LinkedIn using Respond.io to streamline patient communication.
- Designed a secure "holding tank" data process allowing receptionists to manually record incoming social media appointment requests onto offline **Capsule** monitors, effectively preventing scheduling clashes.
- Formulated the transition roadmap to automatically connect the communication hub with the cloud-based Cliniko platform for real-time calendar synchronization in the future.

Office of the Governor, Muharraq Governorate - Intern

Sep 2025 – Nov 2025

- Assisted in administrative tasks, documentation, and official correspondence.
- Managed outgoing mail logs and organized digital/physical files.
- Coordinated National Day invitations, letters, and internal communication.
- Supported public relations activities and prepared formal letters & reports.
- Gained experience in office procedures, workflow coordination, and government operations.
- Improved communication, time management, and Microsoft Office proficiency.

Bahrain Post Office - Trainee

- Assisted with daily IT and administrative operations to support workflow efficiency and customer service.

COURSES

- **Google Skills Program: Basics of Online Marketing**, in partnership with INJAZ Al-Arab, 2016
- **HeadStart: Boosting Your Employability**, INJAZ Bahrain - December 2025
- **Introduction to Artificial Intelligence with Python**, Harvard Online Courses
- **Sustainability in Aviation**, INJAZ Al-Arab & Boeing Bahrain - June 2025
- **Beginner's Guide to Software Engineering**, Youth City 2024
- **Introduction to Cybersecurity**, Harvard Online Courses

SKILLS

- **Front-End:** HTML, CSS, JavaScript (Advanced)
- **Mobile Development:** Flutter/Dart (Basic)
- **Back-End:** Java, PHP, Python, C++, C# (Advanced)
- **Design Tools:** Figma, Canva (Advanced)
- **IDEs / Dev Tools:** Visual Studio, VS Code (Advanced)
- **Data Tools:** Power BI (Certified), Excel (Advanced)
- **Database:** SQL (Intermediate)
- **Networking:** CCNA (Cisco Certified)
